Meet Sarah the School Messenger

Please meet a very important person in the Clay County School System. Her name is "**Sarah the School Messenger**". Sarah has become a "virtually" irreplaceable component of our system. Sarah is our "virtual" newsperson in the 21st Century.

Sarah will be calling the students and parents throughout the school year for a variety of reasons. Sarah will be calling to inform you about Parent-Teacher Meetings, Open House, Special Events, early departure days, and of course, **SNOW DAYS and 2-hour delays.**

Sarah the School Messenger needs the help of Students and Parents. When your phone number changes, please notify the school principal by telephone or send a note. Ask that your number be updated

on the computer system. This is how Sarah knows who to call.

When Sarah calls, she will always be **courteous and respectful.** This is very important, by design, and an example we wish to promote. Although Sarah works very cheaply, a **portion of her cost is paid by the excess levy.** You, the taxpayer, as well as parents and students, deserve courtesy and respect. In fact, **ALL employees of the Clay County Board of Education are expected to exhibit the same.**

By the way, for the crowd who likes to text, **Sarah the School Messenger has been looking into "texting" students and parents about "SNOW DAYS" and 2-Hour delays.**

Thank you for your time and support.
